

## ILLVA SUSTAINABILITY PATH: PRESENTATION AND PROJECT LAUNCH

On the occasion of the recent annual meeting with distributors from across the globe, official presentation took place of the **Illva Sustainability Path**, the Illva Group's **sustainability** project which aims to keep creating and enhancing a fully sustainable corporate culture.

The I.S.P. – ILLVA Sustainability Path project follows the **17 Sustainable Development Goals – SDGs** of the **United Nations 2030 Agenda**, starting from the analysis of the company's major impacts relative

to the **ESG – Environmental, Social, Governance** factors. An operational plan was defined with the initiatives to implement. It includes the prospective publication of the first **Sustainability Report** by mid 2023.

**I.S.P.**  
ILLVA SUSTAINABILITY PATH

**Sustainability** is a **central theme** for the future of the business: this project will enable ILLVA to integrate the initiatives already carried out with an organic intervention plan designed to make the Group increasingly more **sustainable**.

What does it mean to orient corporate business toward sustainability?

First of all, it means to improve and maintain economic performance over time, creating **value** for all the corporate stakeholders; it means to **protect** and **valorize** all

the people who work at and/or with the company, at all levels. Lastly, a sustainable business must **reduce the environmental impact** of its activities and its products, devoting particular attention to the whole pipeline and life cycle of the same: to this end, the first part of the I.S.P. project will involve **Organizational Carbon Footprint** and **Water Footprint** analyses, as well as a **Product Life Cycle Assessment** study, **starting from the most strategic products**.

For the launch of the project

an official document was created indicating all the **I.S.P.** guidelines and prospective stages. It is available online in pdf form for viewing/downloading (in both Italian and English) at the following address:  
<https://illvaholding.com/isp/>

Managing the I.S.P. project is the ILLVA SARONNO **Sustainability Team**, always available to answer any questions and/or provide further explanations, at: [ISP@ILLVA.com](mailto:ISP@ILLVA.com)
